

## **We Are Merry Marionettes**

**We are merry marionettes. We are jolly and care free. Watch us dance and sing when you pull the string. How we move so gracefully! We are merry marionettes. We are here to make you smile. We will sit and stand at your command, and we do it all with style. The puppet master pulls our string and our heads bob up and down.**

**But when he pulls them all at once, then we tumble to the ground. But we never wear a frown, and we never have regrets, for we laugh and play all the live - long day. We are merry marionette's!**

**The laugh and play all the live - long day. We are merry marionettes! Oh yes, we are merry marionettes!**
